About

I am a Software developer with 4+ year experience have experience in a variety of platforms, including web, mobile, and desktop applications. I also offer services such as software architecture, design, testing, and deployment. I pride myself on delivering high-quality solutions that are tailored to meet the specific needs of our clients.

I have experience in web development as well as mobile-app development. Currently I'm working in React-js, React-native, Angular-js, Nodejs, Next-js.

Experience

Software Engineer (Frontend Blockchain Development)

Techalchemy | Pune, Maharastra

August 2023- Present

- Led frontend development for blockchain and NFT-related projects, ensuring seamless integration with blockchain functionalities.
- Developed responsive and dynamic user interfaces using React.js, and Angular.js, enhancing user experience and engagement.
- Collaborated with design and backend teams to implement innovative solutions tailored to client needs.
- Managed project timelines and ensured timely delivery of high-quality software solutions.

MERN Stack Developer

Dvij Infotech | Ahemdabad, Gujarat

2021 - 2023

- Worked on both frontend and backend development for various projects, including an e-commerce website, a cricket score mobile app, and a doctor appointment app.
- Utilized the MERN stack (MongoDB, Express.js, React.js, Node.js) to build robust and scalable applications.
- Designed and implemented user-friendly interfaces and ensured seamless user experiences across different platforms.
- Developed RESTful APIs and integrated them with frontend components, ensuring efficient data flow and functionality.
