

RUTVIK GHASKATA

Software Engineer

About

I'm a **Frontend Developer** with over 4+ years of professional experience, passionate about building fast, scalable, and visually engaging digital experiences that seamlessly blend modern design and technology.

My expertise lies in **React, Next.js, React Native, and Angular**, where I craft high-performing, user-centric web and mobile applications with a strong focus on **Web3 and blockchain integration**.

I specialize in translating complex blockchain concepts into intuitive, **user-friendly interfaces**, enabling smooth interactions with **smart contracts and decentralized applications (dApps)**. With hands-on experience in **Node.js**, I also collaborate effectively on full-stack and Web3-enabled solutions.

Whether it's bridging **Web2–Web3** user journeys, integrating crypto wallets & blockchain APIs, or optimizing frontend performance, I'm driven to turn innovative ideas into impactful digital products. Always eager to learn and explore emerging technologies, I aim to bridge the gap between modern frontend development and the decentralized future.

Experience

Software Engineer (Frontend & Blockchain Development)

Techalchemy | Pune, Maharashtra

August 2023– Present

- Led frontend development for blockchain and NFT-related projects, ensuring seamless integration with blockchain functionalities.
- Developed responsive and dynamic user interfaces using React.js, and Angular.js, enhancing user experience and engagement.
- Collaborated with design and backend teams to implement innovative solutions tailored to client needs.
- Managed project timelines and ensured timely delivery of high-quality software solutions.

MERN Stack Developer

Dvij Infotech | Ahmedabad, Gujarat

2021 – 2023

- Worked on both frontend and backend development for various projects, including an e-commerce website, a cricket score mobile app, and a doctor appointment app.
- Utilized the MERN stack (MongoDB, Express.js, React.js, Node.js) to build robust and scalable applications.
- Designed and implemented user-friendly interfaces and ensured seamless user experiences across different platforms.
- Developed RESTful APIs and integrated them with frontend components, ensuring efficient data flow and functionality.

Certification

- Building an Ethereum Blockchain App
- Blockchain Integration in ReactJs.(Udemy)
- React Native Course (Udemy)
- NodeJs (Udemy)

STRENGTHS

- Analytical skills
- Leadership skills
- Ability to work in a team
- Quick Learning Ability
- Multi-tasking

LANGUAGES

- ENGLISH | HINDI | GUJARATI

EDUCATION

Master of Computer Applications

Jain University (Online)

2022 – 2024

Bachelor–Education

VNSGU University

2019 – 2022

Higher–Education

Gurukul Vidhyapith Kumar Vidhyalaya

2016 – 2019

EXPERTISE

- Javascript
- ReactJs, React Native
- NextJs
- AngularJs
- Basics Of Nodejs
- Firebase, Mongo Db
